- Creating a CAS Account and joining Student Central

The Casualty Actuarial Society (CAS) is a leading international organization for credentialing and professional education. Founded in 1914, the CAS is the world's only actuarial organization focused exclusively on property and casualty risks and serves over 10,000 members worldwide. CAS members are experts in property and casualty insurance (also commonly known as general insurance or non-life insurance), reinsurance, finance, risk management and enterprise risk management. Professionals educated by the CAS empower business and government to make well-informed strategic, financial and operational decisions.

First Time Users

If you have never had a CAS Portal account, you can create one by visiting this page: <https://www.casact.org/cas-has-new-user-portal> and using the “Create an Account” button.

**If you are uncertain whether you have a prior account, for example, if you used a different email address, please email acs@casact.org to check before opening a new account.

Since many of our new CAS Portal users are students, after creating a new account, the system will ask you if you would like to join Student Central.

Individuals must create their own accounts to set their passwords and verify their accounts with multi-factor authentication (MFA).
